## Celebration of World Environment Day

Ekta Koraput celebrated the world environment day in one of the field areas i.e. Bhejapadar under Dasmantpur block today. Besides creating awareness on the importance of this day, we have also planted some trees with community support and participation. Let's hope, people realized the importance of environment in one's life and do the needful accordingly.

## Organization of District Level Ecological Diversity Meet

Program organized at Tribal Museum, Koraput today. The program was inaugurated by Ms. Susmita Meleka, Chairman, Zilla Parishad, Koraput. The community people from different villages were not only participated actively in the whole processes but also demonstrated their traditional seeds and products. At the same time, they had got opportunities to share their experiences in preserving and promoting these seeds. We are thankful to different civil society organizations working in the district on agriculture made the program memorable and successful in many ways through their presence and participation. Different programs during the days made the program a unique one. Mr. Jagannath Mishra, Secretary & Mr. Durga Prasad Mohanty, President has facilitated the program.

### Addressed Drinking water problems through Village Development Committee (VDC)

The Village Development Committee(VDC) of Badaguda village under Mujang GP of Dasmantpur block has succeeded in their attempt for addressing the water crisis. Now, the work in progress in their village. They had not only given the representation to the district administration but also followed up the same on a regular and timely basis. This has been possible only through a combined efforts of the villagers through VDC. Hopefully this will inspire other villages to address their issues.

### Convergence with government department for carers of People with Disabilities

Sincere thanks to the Horticulture Department, Koraput which had provided with the 13 varieties kitchen garden seeds support to the 174 nos. of Carers. This is really a great support to the Carers. The seeds are provided to the Carers in presence of Sarpanch and other people's representatives of Mahadeiput which has been facilitated by our staffs.

## Need to preserve, protection & promotion of traditional practices of Adivasi's

Adivasi has its own practices, culture, tradition, system of governance, belief, rituals among others which make them different, unique and special on many ways. With the external influences, things have been changing thick and fast in the lives and livelihood of the adivasis. These changes have been definitely alienated and detached themselves from their rich culture and tradition in some or other ways which is a cause of concern. Despite these changes in the outer world, still, in many pockets of Koraput region, adivasis are very much attached to their own practices. They believe, practice and promote of the adivasi culture. Changes are inevitable! To cope with these changes, there is a need to cope with the situations which is continuous and deliberate process. The community people of Bhejapadar and Paraja Gadri have made every efforts at their own level for further promotion of their adivasi culture. And, also of other villages! The efforts made by these community partners are really commendable and praiseworthy.

## Child Reporter – An initiation of child participation to express their opinion

Children as well as project staffs from Dasmantpur and Borigumma blocks had participated in the workshop on Child Reporters organized today at Tribal Museum, Koraput. This workshop was nicely facilitated by Mr. Santakar Chelpila, Specialist in facilitating the Child Reporters. The children were actively participated in the whole processes through their support, cooperation and participation. Hopefully, the children will be utilized the learnings gained from this program in the days to come in their greater interest.

### Director SSEPD visited our Community Rehabilitation Centre

Smt. Bratati Harichandan, IAS, Director, SSEPD had visited our therapeutic and rehabilitative service center for the children with intellectual disabilities at Duruguda with Mr. Simanchal Mohapatra, DSSO, Koraput. They had not only met the Children with Disabilities and their family members but also interacted with them. Mr. Jagannath Mishra, Secretary, staff members, our mentor & Development Consultant Mr. Ramkrishna Surdeo (RK) present and shared more about Children With Intellectual Disabilities, Early Intervention, and support services provided, the center and its functioning. We give our heartfelt thanks to all concerned for visiting our center and suggested through their need based suggestions and inputs in the greater interest of the target group.

### Now Isak able to walking & do their daily living activities

When we have identified Isaks he has unable to sit properly, unable to walk, unable to speak frequently, No trunk control. After our team intervention now he is able to walk & do their daily activities. And parents said "Now we are happy with Isaks development & thanks to Ekta's team."
